

Bramatt Computing's core infrastructure operates to allow us to operate within every sector throughout the UK.

The basis for all our solutions are very simple, it should address the business needs and not be over complicated. The technology should increase productivity and give a speedy return on investment. By using this working methodology we continue to grow and develop long term relationships with our customers.

By using a structured partner ship approach, Bramatt Computing can deliver a very wide array of services. Our online ordering system has been designed to offer the most competitive prices within the UK and backed with dedicated account mangers, offers a complete solution to your buying requirements.

Dedicated account management is crucial to long term business relationships, all of our account managers have accredited experience in the industry and receive regular audited training so you can be assured that your account management team is always up to date with the latest technology and industry developments. By listening to the business needs of our customers, we are able to build strong foundations and trusted partnerships.
